

FREE VIRTUAL TRAINING

In the Behavior Analysis for Inclusive Vaccine Administration (BAIVA) training, healthcare professionals learn behavioral techniques to help **promote cooperation, comfort, and safety during vaccine administration** and healthcare visits when working with patients with intellectual or developmental disabilities (IDD). **This 1-hr training is completely free and respondents will earn a free certificate upon successful completion.**

Scan the QR code or visit uhcl.edu/BAIVA to learn more about the program or to begin earning your free certificate
